### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: None of the prior art, either alone or in combination suggests the instantly claimed invention. The newly cited reference to Rank et al. shows a splicing device with two reels, respective preparation heads above the reel carriers, and a movable splicing head between them but fails to show the preparation head to have a fixed roller fitted with a tilting structure comprising an end suction and a roller with an extended independently tilting section to grip the web against the fixed roller.

Harris, Jr. shows a splicing apparatus wherein preparation heads above the two reel carriers are laterally movable and pivotable to move into position with a stationary splicing head. Harris, Jr. also does not show the instantly claimed features missing in Rank et al. as the entire preparation head is tiltable and there is no independently tilting section to grip the web against a fixed roller.

Biagiotti, Sato et al., and the two references to Forbes each show splicing apparatuses with preparation heads above reel carriers but do not show any additional claimed limitations not in Rank et al. or Harris, Jr.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark A Osele whose telephone number is 571-272-1235. The examiner can normally be reached on Mon-Fri 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Crispino can be reached on 571-272-1226. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
